OBJECTIVE

Aspiring technology professional with hands-on project experience in software development, data analysis, and game development, seeking to apply technical and problem-solving skills in an entry-level IT or software role.

EDUCATION

Bachelor of Science in Computer Science

Aug 2018 – Dec 2022

California State University, Bakersfield — Bakersfield, CA

GPA: 3.61

PROJECTS

Image Processing Desktop App

October 2024 – November 2024

Python, Tkinter, Pillow

- Built a CLI and GUI application for editing images, including custom filters (glitch, edge detection, glow) and live color-channel viewing.
- Designed a Tkinter-based graphical interface with real-time image updates and a 5-state undo system.

2D Game Suite

October 2024

Python, Pygame

- Built a main menu and two playable mini-games featuring dynamic difficulty scaling and weighted collectible spawn rates.
- Structured game logic into reusable modules and implemented save/load functionality for persistent high scores.

Car Accident Dataset Analysis

April 2022 – May 2022

Python, Pandas

- Cleaned and analyzed a dataset of 711,000+ rows and 21 columns, building a menu-driven tool with search functionality.
- Applied timing functionality to measure script performance and deliver detailed, printed analysis results.

Rate 'Em Web App

August 2021 – May 2022

PHP, MariaDB, HTML/CSS, JavaScript

- Led a 4-person team in designing and developing a web application for searching, rating, and reviewing properties, including user registration.
- Used PHP to connect the app to a MariaDB database and built the client-side interface with HTML, CSS, and JavaScript.

TECHNICAL SKILLS

Languages: Python, PHP, JavaScript, SQL, HTML/CSS, Lua, C++

Other: Software Development, Database Management, Data Analysis, Git/GitHub, Debugging & Troubleshooting

ADDITIONAL SKILLS

Adaptability, Communication, Problem-Solving, Time Management, Team Collaboration
